Product Description

Sparkling a new cocktail craze in the United States circa 1940s, the Moscow Mule quickly became a traditional Russian inspired vodka and ginger beer drink served in a cool copper mug. Use this set of two Moscow Mule drinking mugs to remember and compliment the traditional cocktail. The copper-plating and stainless steel design helps to keep your drinks colder for longer, while the contoured solid brass handle makes these mugs easy to hold. Although it was originally dubbed for the Moscow Mule drink, these mugs are perfect for enjoying any cold beverage from water and iced tea to cocktails and beer.
